Clow EN131: Professional Superglas® AR Platform Step

The all new Clow Superglas® AR Step is a sturdy, durable “All Round” platform step offering safe 360° access from a strong supporting platform.

Wide integrated handrails, a wrap around rear guardrail and gravity locking front guardrail means this step provides operatives with a safe and secure non-slip access platform ideal for wide range of tasks.

Insulated GRP stiles, rigid back bars, reinforced non-slip treads together with parallel steel locking stays and transport wheels make this step robust and manoeuvrable.

Available in 2, 3, 4, 5, 6, 7 and 8 tread sizes.

Conforming with European Standard EN131: Professional the Superglas® AR Platform Step safely supports a 150kg load.
