Cable Pulling / Laying Winch 2.5t Dragging capacity 110v

This 110V Electric Winch takes the strain and makes the job easier when it comes to reeling in cables. It reduces manpower hours required to meet installation deadlines and is safer and faster. It is suitable for continuous pulling to tackle the toughest pulling applications.

Product Features:

Dual capstan heads – Will haul up to 1500kg and 2500kg.

Two speed options – According to the capstan head selected.

Easily transportable on site – Using either the removeable wheels or carry handles.

All round tubular frame – Strong and makes it simple to hold by attaching restraining straps to the shackles provided or using ground stakes through the integral side lugs.

Foot controlled for efficient control – Leaves the hands free for cable spooling.

Cable storage reel.

Case hardened gear train for maximum efficiency.

High efficiency heavy-duty ball bearings on all running surfaces.

Overload protection ensures automatic shutdown.

Electromagnetic spring-applied fail-safe brake.

Rugged high power induction motor to ensure reliability.

Specification:

Weight	80 kg
Dimensions	65 × 55 × 44 cm
Voltage	110 V
Motor outputs	0.6kW
Pulling Capacity	1500 kg, 2500 kg
Rope speed	Small capstan: 2.5m/min
Rope speed	Large capstan: 4m/min

Compliant With EN 14492-1 Regulations
